

Conditions for safe storage,

**General hygiene
considerations**

Inhalation

Breathing of high concentrations may cause dizziness, light-headedness, headache, nausea and loss of coordination. Continued inhalation may result in unconsciousness. Suffocation (asphyxiant) hazard - if allowed to accumulate to concentrations that reduce oxygen below safe breathing levels.

Skin contact

Contact with liquefied gas can cause damage (frostbite) due to rapid evaporative cooling.

Chronic effects

May cause central nervous system effects.

12. Ecological information

Ecotoxicity

Not expected to be harmful to aquatic life.

No available data.
